

Web Registration / Login / Page Customization Guide

Customizable login page

- The top line is editable up to 50 characters (highlighted in yellow in attached image)
- You also have the option to add text below the second line (up to 500 characters) – see red box in attached image for location.
- The background image can be changed. Recommended image size: 850x350

The screenshot displays the myFinLocker login page in a browser window. The page features a header with a yellow highlight on the text "Welcome to myFinLocker, your personal financial management solution". Below this, there is a paragraph of text: "We safeguard your information with bank-level security and we encrypt any personally identifiable information stored using AES-256 encryption." A red box highlights a specific area on the left side of the page, likely indicating a location for additional text. To the right of the text, there are input fields for "Email Address" and "Password", a "Forgot Password?" link, and a "LOGIN" button. At the bottom of the page, there is a footer with the "POWERED BY FINLOCKER" logo, a "Support" link, and other navigation links: "Terms of Service", "Privacy Policy", "Security", and "Forget Me". The footer also includes the copyright notice "© 2021 FinLocker, LLC. All rights reserved." and a "Show all" button.
